

Farm-to-Fork is where children and adults broaden their familiarity with the source of many foods they eat, follow food production and distribution from seed to feed of familiar foods and relate food, flavors, and aroma with products, meals, and dishes available in markets, at home, and in cafes.

Primary Learning Domain: Fostering a sense of community and culture.

Secondary Learning Domains: Exploring STEM concepts through hands-on experimentation and developing socially and emotionally through interactions with peers and adults.

Learning Category	0-1 years	1-3 years	3-5 years	5-7 years	7 + years
