

Join us for an Au-Some Evening!

Please join us as special education and physical and occupational therapy students from Buffalo State and UB will supervise play stations throughout the Museum. The stations will include fun and engaging activities that address all domains of learning through interactive games and play. Parents will be provided directions to replicate all of our play stations at home if they would like to continue the fun! Plus, the talented Sara Rogers will be playing songs for all to sing along to.

Friendly reminders:

- Many in attendance have complex medical needs, therefore, children are strongly **encouraged** to wear face masks, and adults are **required** to wear face masks at all times.
- Children must be supervised by an adult at all times.

Friday, November 12
5:30 pm - 7:30 pm
